About Me

Experienced Architect , excelling in sustainable design and team leadership. Proficient in AutoCAD, 3Dmodelling & rendering software, I have successfully mentored junior architects while enhancing project efficiency. My commitment to innovative design and collaborative environments drives exceptional results in architectural projects.

WORK EXPERIENCE

March 2017 - March 2018

DLF - Chennai

Intern Architect

- Developed 3D renderings and presentation materials for client meetings, aiding in the visualization of proposed designs.
- Supported senior architects in schematic design phase, refining ideas through sketches and digital models.

March 2019 - May 2024

Neoframes - Hyderabad, India

Senior Architect

- Mentored junior architects, fostering a collaborative work environment that encouraged professional development and growth.
- Led design team to achieve seamless project execution, ensuring all deadlines and milestones were met.

May 2024 - Nov 2025

PeopleTech Group - Hyderabad, India

Architect - Outsourced US Gated Community Project

- Collaborated with a US-based architecture firm to design and develop a gated residential community comprising villas, amenities, and shared spaces.
- Created detailed construction drawings, site plans, and layout plans based on US building codes and client specifications.
